DETAILED ACTION

Drawings

1. The drawings were received on June 1, 2004. These drawings are accepted.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 21-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims recite a single "director response agent" which receives attributes from more than one border router and which also compares a first border gateway protocol attribute to a second border gateway protocol attribute. The claims also recite a "distributed director" which receives a first border gateway protocol attribute to a second border gateway protocol attribute.

4. According to applicant's disclosure, a "director response agent" does not receive attributes from more than one border router and which also compares a first border gateway protocol attribute to a second border gateway protocol attribute. Each embodiment as described by applicant's specification has a "distributed director" which receives attributes from more than one border router and which also compares a first

border gateway protocol attribute to a second border gateway protocol attribute. The disclosure does not teach or suggest an embodiment where the functionality of the “director response agent” and “distributed director” are incorporated in a single agent.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
